

## FLOAT MODEL DUAL PACK EVAPORATORS

- Turbo-mist* Self contained unit with one 30hp four stage vertical centrifugal pump
- Turbo-mist* Self clean -filtering system
- Turbo-mist* One pump feeds two evaporators at 150-200psi
- Turbo-mist* Has built in control panel with low pressure shut down
- Turbo-mist* Remote start/stop from shore can be added as an option
- Turbo-mist* Standard dual pack (2 evaps one pump) pumps 160 gpm aloft
- Turbo-mist* 25% evaporation rate would yield 1.728 million gallons per month evaporated
- Turbo-mist* 50% evaporation rate would yield 3.456 million gallons per month evaporated
- Turbo-mist* Uses 51 kilowatts per hour to run 2 evaporators and one pump
- Turbo-mist* Monthly maintenance allows 24/7 operation rain or shine
- Turbo-mist* Units are powder coated to allow use in highly corrosive waste situations
